Vortex Equipment is Known for... Performance, Reliability, and Innovation

COMPANY HISTORY

Vortex Fluid Systems, Inc. (VFSI) was incorporated in 1995 by Grant Young and in 1998 began to design and build high-performance equipment for the drilling and mining industry. Prior to this Grant spent 16 years working for Amoco Research in the area of solids liquid separation and is the author of numerous technical papers. Grant is author of the 1983 Amoco "Handbook for Successful Solids Control" and is also known for his work in solid-liquid and oil-water separation using hydrocyclones. In 1994 Grant became an SPE Distinguished Lecturer.

COMPANY GOALS

Since Vortex Fluid Systems Inc. founding, our goals have been simple. Serve our customers by creating the best performing and most durable shaker, with the best screen life of any shaker in the industry. With over 1000 ORBITAL® shakers in operation worldwide and a loyal satisfied customer base, we have accomplished these goals and are excited about what the future holds for our customers.

Today Vortex Fluid Systems Inc. is known in the drilling, mining and industrial applications for performance, reliability and innovation.
